

Star designed for IOLI Convention 2012

(Picture is back of lace)

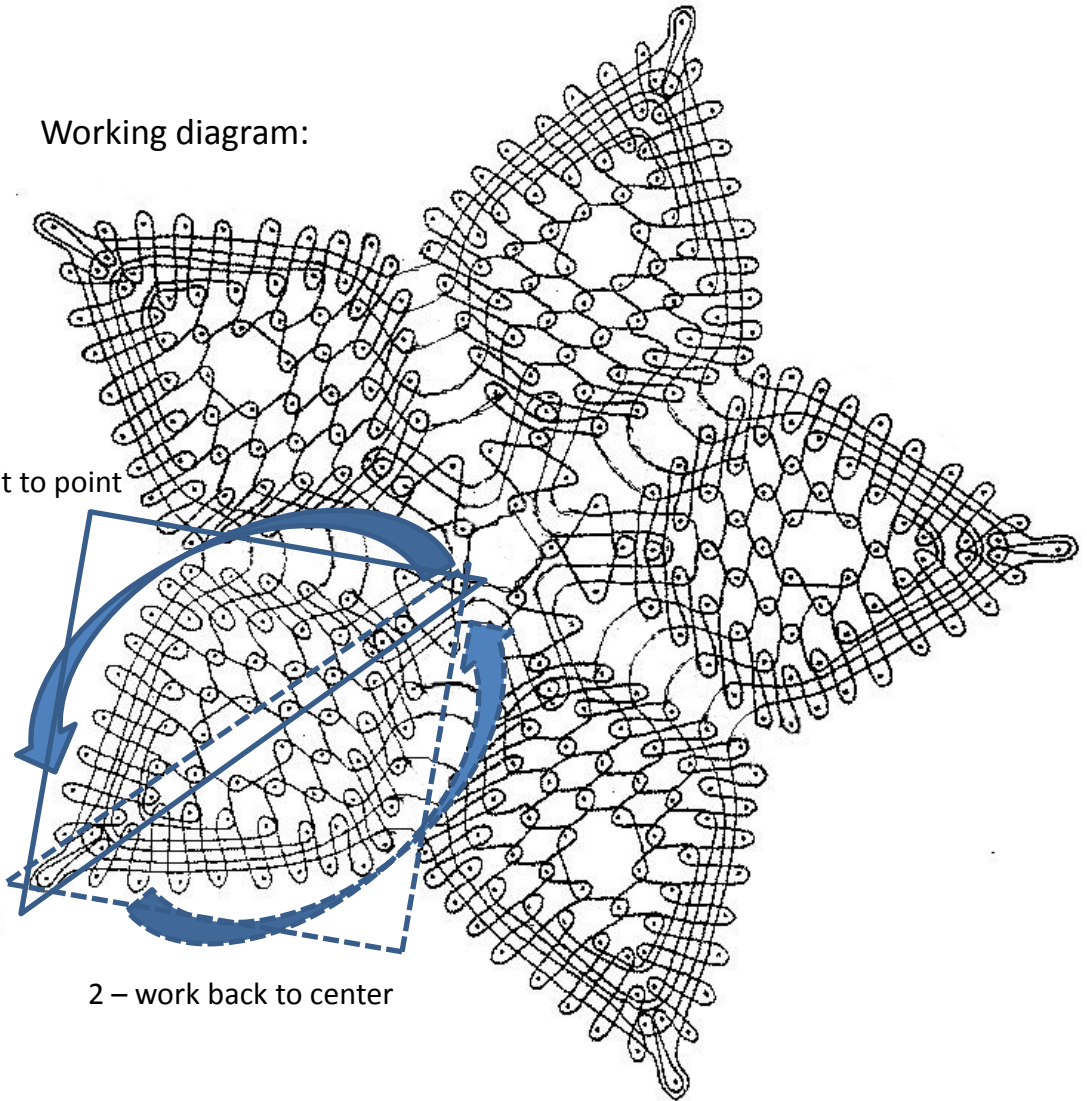

White and/or silver thread
2.25 inches across

Pattern:

Working diagram:

1 – work out to point

2 – work back to center

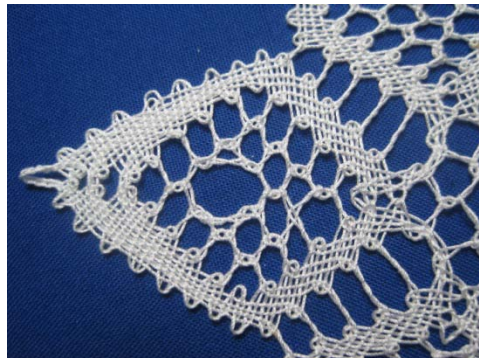

8 pairs DMC machine broder 50 or equivalent: 1 yard per bobbin on 7 passive pairs, 2-3 yards per bobbin on 1 worker pair.

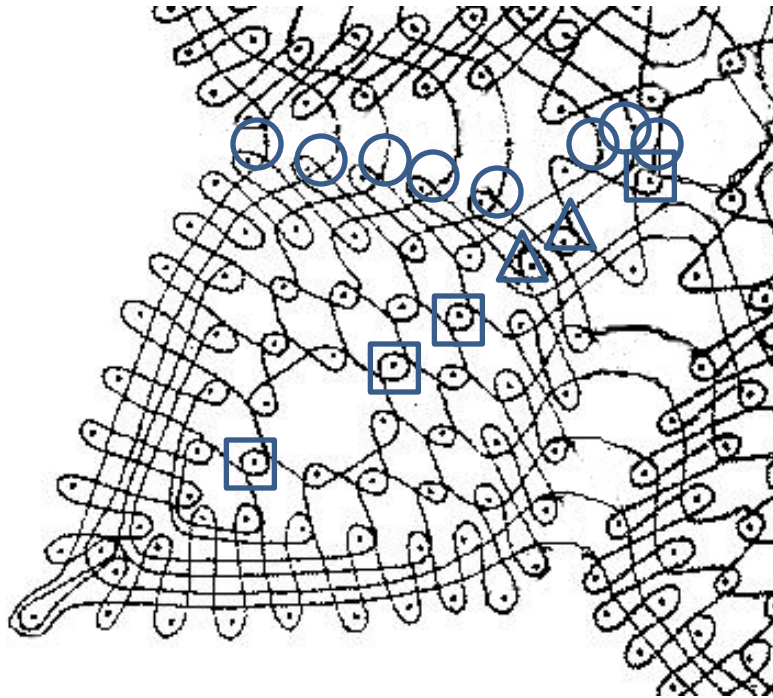

Worker starts at center (see circles on diagram for temporary pin locations)

Cloth stitch tape on edges

Ground of CTCT pin CTCT

Twist as needed on bars

Plait worker and
outer pair at tip

At circles place temporary pins to hang on pairs. Worker pair is center-most.

At square pins on diagram:

- twist pair 4 times, place pin (like a winkie pin) on way out toward point
- sew into top bar, twist around pin, sew into bottom bar on way back toward center
- final effect should be like the other ground stitches

At triangle pins on diagram:

- twist pair 4 times, place pin (like a winkie pin) on way out toward point
- regular sewing on way back toward center

At end of work, sew each pair into its starting temporary pin hole. Knot and cut threads.
